 - Having hand washing capabilities, hand sanitizers and tissues available.
 - Frequently cleaning high touch surface areas like counter tops and hand rails.
 - Finding ways to implement social distancing.

Schools: Safety First

- Do not have your child attend school if sick.
- If you have a child with chronic health conditions, consult the child's doctor about school attendance.
- Schools should equip all classrooms with hand sanitizers and tissues.
- Recommend rescheduling or cancelling events that are not essential.

- Provide hand washing/hand sanitizers and tissues in stations and on vehicles.
- Ensure social distancing practices are implemented to the full extent possible.

Health Care Settings: Avoid as possible, protect the vulnerable

- Long-term care facilities should have a COVID-19 plan in accordance with CDC or state guidelines.
- Long-term care facilities should restrict all visitation except for certain compassionate care situations, such as end of life situations.
- The general public should avoid going to medical settings such as hospitals, nursing homes and long-term care facilities, even if you are not ill.
- If you are ill, call your health care provider ahead of time, and you may be able to be served by phone.
- Do not visit emergency rooms unless it is essential.
- Follow guidance and directions of all facilities.

Everyone: Do your part

The best way for all residents to reduce their risk of getting sick, as with seasonal colds or the flu, still applies to prevent COVID-19:

- Wash hands with soap and water for at least 20 seconds.
- Cough or sneeze into your elbow or a tissue. Throw the tissue in the trash.
- Stay home if you are sick.
- Avoid touching your face.
- Try alternatives to shaking hands, like an elbow bump or wave.
- If you have recently returned from a country, state or region with ongoing COVID-19 infections, monitor your health and follow the instructions of public health officials and CDC guidance.
- There is no recommendation to wear masks at this time to prevent yourself from getting sick.

You can also prepare for the disruption caused by an outbreak. Preparedness actions include:

- Prepare to work from home if that is possible for your job, and your employer.
- Make sure you have a supply of all essential medications for your family.
- Prepare a child care plan if you or a caregiver are sick.
- Plan for how your family will manage school closures.
- Plan for how you can care for a sick family member without getting sick yourself.
- Take care of each other and check in by phone with friends, family and neighbors that are vulnerable to serious illness or death if they get COVID-19.
- Keep common spaces clean to help maintain a healthy environment for you and others. Frequently touched surfaces should be cleaned regularly with disinfecting sprays, wipes or common household cleaning products.
